

Customers

Good idea in the colder months as an annex to the wonderful summer market days.

Great idea. Enjoyable and helpful

Fantastic! Love it!

The year round market fills an important need for my family by providing access to local food, herbs and other products. It significantly adds to the quality of life in Worthington and is one reason why I will continue to live here.

Excellent! Brought us to Worthington today, otherwise would not have come.

Love the Farmers market! All year long!

Great! My friends in Clintonville come here - I'm used to the great Central Market in Chicago and West Side market in Cleveland. Good start!

We love it. It is an awesome community event that we look forward to every time. We would love to see more veggies available. Thanks.

Great fun! Love to buy meat here from farmers who care for their animals and feed them grass, etc. and not bad stuff. The atmosphere really makes your day.

We love having a Winter Market! Thank you!

To meet the people who grow/make your food is irreplaceable. THANK YOU!

Excellent - We love natural/organic foods

Fabulous. Fun to bring the Summer Market to cold winter.

Glad it is here.

Great idea, hope it continues.

Wonderful, make it bigger, larger room

Thrilled beyond belief with the hours

Really cool, sorry I didn't find out about it sooner.

Feels like spring time in the winter. Hurrah!

It is great - a great market and a good idea

It's wonderful. It's marvelous. It's what I long to see. It's what we've been waiting for.

Shop here first!

We'll be back!

I'm glad they're doing well. Sold out when come too late.

We always come in summer. Enjoy fresh fruits and vegetables.

Really appreciate chance to have market in winter. Summer is so great - like to keep going. Griswold great.

Thought season was over - happy when it wasn't. Rather give money directly to the farmers. This makes Worthington stand out.

Vendors

This way exceeded our expectations - both sales and the knowledge base of the customers. We haven't had to explain local food, free range, organic, slow growth concepts. We've been shocked at how interested people are.

A lot of our regulars from the summer are happy to have this. It's going well for us so far. The only negative was the snow last time, but a lot of people still came.

We established a lot of customers in the summer and they are coming back in the winter. The Market is great! Our sales are up per week over the summer! The winter is better because we don't have to worry about our tent blowing down. We didn't know if we'd have enough product, but we do.

(meat guy just next to the apple guy) I signed up for the Winter Market just to support it, not thinking it would do very well. I was hoping to do 1/3 to 1/2 of my summer business and at least meet new customers. Today was crazy!! We did 4 hours of business in 1-1/2 hours. A big bonus is the children playing the piano.

(apple guy) This market has way surpassed my expectations. Even with the snow last week it was great. I sold out. People bought the first time they walked past, knowing that I might be sold out if they waited.

I'm very happy with the number of customers and they're buying!
The facility is a little crowded. Problem with the winter market is the weather. We didn't know what would happen after Christmas. The only vendors who aren't happy are the ones who didn't bring enough stuff!!

Michelle Chauney - I'm doing the same or better than the summer. Lots of new customers. I like the smaller number of vendors which gives me a better advantage - and I have a better location here. I did very well from 10 - 12. The 10am start is good - it gives people time to get going on a cold day, do their chores. I like every other Saturday so I get a break. The piano player is great!

Happy with sales. They're down from the summer, but that's to be expected. Need a bigger building. Should go from 10 - 1.

Amazingly good sales - really exceeded my expectations. Better customer base here than the winter market in Cleveland. Great customer support.
smaller - get to know your neighbors. Sales way up from summer sales - less competition in winter.

I feel very positive! Great attendance. Great sales. 2:00 is too late.
10:00 to 1:00 would be better. Sustainable Worthington is doing a great job of organizing and promoting the market. It's great to have bathrooms so I don't have to feel guilty about asking store owners to use theirs.

I'm thrilled that people actually will buy yarn and knitted things from me! I'm learning what to bring. People ask us a lot of questions.

Wish I had more rosemary - I sold out. I never sell out in the summer.
The mushroom logs are selling well. I didn't know what to expect. I'm glad my booth is in the large room - I wouldn't like to be in the hallway. I have new customers compared to the summer. I'm earning enough to cover my gas and booth fees.

Wonderful! Lots of people! Whole new groups of customers. I've had repeat new customers.

(Curly tail) Good so far. Today I'm well above summer sales - I hit a plateau in the summer and haven't grown in the last few years. I was apprehensive at first. Different people are coming to the winter market.

(Donna Combs) Love it! Fun socially to see vendors and customers
The community said they'd support this and they really are here. I'm impressed with the marketing. My winter sales are pretty close to my summer sales. Hours 10-2 are good.
